NORTH ATLANTIC TREATY ORGANIZATION
ORGANISATION DU TRAITÉ DE L'ATLANTIQUE NORD

A POLITICAL AND MILITARY ALLIANCE

Security in our daily lives is key to our well-being. NATO's purpose is to guarantee the freedom and security of its members through political and military means.

POLITICAL - NATO promotes democratic values and enables members to [consult](#) and cooperate on defence and security-related issues to solve problems, build trust and, in the long run, prevent conflict.

MILITARY - NATO is committed to the peaceful resolution of disputes. If diplomatic efforts fail, it has the military power to undertake [crisis-management](#) operations. These are carried out under the collective defence clause of NATO's founding treaty - [Article 5 of the Washington Treaty](#) or under a United Nations mandate, alone or in cooperation with other countries and international organisations.

Conference of National Armaments Directors (CNAD) - Senior Advisory Committee to North Atlantic Council

To enable **multinational cooperation** on delivery of **interoperable** military capabilities to improve NATO's forces **effectiveness** over the **whole spectrum** of current and future operations.

Defence Investment Division ...*facilitates and coordinates the development and delivery of interoperable defence capabilities, in order to ensure Alliance forces can fulfil core tasks and carry out assigned missions and operations.*

Pre-concept >> Concept >> Development >> Production >> Utilization >> Support >> Retirement

“The ability to act together
coherently,
effectively and
efficiently
to achieve Allied *tactical, operational* and
strategic objectives.”

A **stronger defence industry across the Alliance**, which includes small- and medium-sized enterprises, greater defence industrial and technological cooperation **across the Atlantic and within Europe**, and a robust industrial base in the whole of Europe and North America, remain **essential for acquiring needed Alliance capabilities**.

For the Alliance to keep its technological edge, it is of particular importance to **support innovation** with the aim to **identify advanced and emerging technologies, evaluate their applicability in the military domain, and implement them through innovative solutions**.

In this regard, NATO welcomes initiatives from both sides of the Atlantic to **maintain and advance the military and technological advantage of Allied capabilities through innovation** and encourages nations to ensure such initiatives will lead to increased cooperation within the Alliance and among Allies.
