**Women Defending Japan**

Hosted by

In National Security and defense technology across Allied Nations, workforce expansion is critical. Professional networks, cross-sector teams, and mentors for women, veterans, and transitioning military are key to recruiting and retaining key talent pools. On March 18, Pacific Impact Zone, its partners, and organizer partner the International Security Industry Council of Japan will convene a series of Indo Pacific career networking events.

Please join us for this and more to follow.

**Saturday 18 March 2023**
