THREATLIGHT

PROTECT WHAT MATTERS MOST

The single most important
factor in a **cyber breach** is **SPEED**

THREATLIGHT
PROTECT WHAT MATTERS MOST

The single most important factor in a **cyber breach** is **SPEED**

What can be worse than your business being shut down and lost confidential customer data?

Not knowing what to do next or when you'll get back to normal operation

THREATLIGHT
PROTECT WHAT MATTERS MOST

The Reality is Overwhelming

Today's cybersecurity is reactive and fragmented, leaving businesses vulnerable

Every **14** seconds a company falls victim to Ransomware

Nearly **4,000** new cyber attacks occur every day

560,000 New malware variants are being detected daily. How many go undetected?

IT'S NOT A QUESTION OF 'IF', IT'S A QUESTION OF 'WHEN'

ThreatLight helps businesses restore operations with unmatched speed while minimizing future risk

ThreatLight:

Next Generation proactive DF/IR solutions &
Cyber Resiliency services for Businesses

Keeping Businesses Operational
even when facing a Security Breach

Our next generation proactive response solution focuses on the organization's critical assets, allowing our experts to react to incidents in real time with the help of our infinitely scalable cloud based targeted detection and response technology.

Speed of Response and Business continuity

Truly Here to Solve a Problem

Why Us

→ <u>Incredibly fast & simple</u> spin-up/deployment (fastest in industry)

→ Focus on <u>Critical and relevant assets</u> only

→ Analysis, Investigation and Hunting Globally <u>at Scale</u>

→ Hunting methodology - based on extensive <u>Offensive & Defensive</u> experience

→ Post Incident <u>guidance to improve posture</u> (in for the long haul)

| Scoping | Deployment | Containment | Investigation | Eradication | Recovery | Post Breach Consultancy |

THREATLIGHT
PROTECT WHAT MATTERS MOST

Unique Technology
Targeted Detection and Response (TDR)

→ Cloud based, vendor agnostic Incident Response platform, pre positioned on key, Critical Infrastructure*

→ Lightweight, quick & easy to deploy, easily & flexibly tuned - safe to deploy on even the most critical business assets

→ Used to hunt for real world techniques seen in recent Investigations and stay on top of novel threats

→ Leverage AI and Machine learning to cross correlate key datasets, improving reaction times and dramatically increasing the number of serviceable customers per Investigator

→ Infinite Scalability: Cross environment hunting making it possible to address an infinite number of customers at once (enter Solar Winds, WannaCry) and react instantly

→ Low infra cost

→ Did we say **"React Instantly?"**

*ongoing service for subscription customer
