Neeraj Kumar

Certified Project Management Professional with incredible experience acquired over the years in diverse areas of Program Management and end-to-end Business Delivery including Government Process Re-engineering. More than 30 years of experience in software design, development & successful implementation for government mission critical and large projects. Notable mentions include Passport Seva Project and MCA21 (Ministry of Corporate Affairs).

Advisory Board

Dr. Arun Kumar

Dr. Arun Kumar,
Professor & x-HOD,
Centre for Applied Research in Electronics
(CARE), IIT-Delhi,
Signal/Speech Processing Expert
Executive Member, MeitY NLTM/Bhashini Project

Mr. Sandeep Kumar

Sandeep Kumar
Founder & CEO, Voxomos Systems
IIT-Kanpur (IIT-K), Former
Cadence/Synopsys, Deep Learning, NonLinear Signal Processing

Dr. Vireshwar Kumar

Asst. Prof at IIT-Delhi in CSE deptt.

Research credentials in Intrusion detection systems, CAN analyser

Academic credentials from IIT-D, Virginia Tech-USA

https://www.linkedin.com/in/vireshwar-kumar-106b278/

Vcybersecurity for Automotive

As per UNECE 155/UNECE 156 mandate-All passenger vehicles need to be certified to be cyber safe.

It is the responsibility of the OEM to ensure certification, and have processes in place to manage the entire lifecycle to be cyber safe.

Currently approx. 54 countries, incl EU, UK, Japan, Aus, NZ are signatories. Hence in these countries beyond the June 2024 deadline no new passenger car model can be sold unless it is certified to be cyber safe.

Ekjal Tech-a start up focused on providing products and professional services for Technoloy cyber security.

We enable certification, compliance, security operations center, embedded security solutions.

We leverage our platform services, frameworks and tools for vehicle cyber security processes across the entire supply chain.

Maintaining continuous cyber security of vehicles by monitoring, incident handling and VSOC support

Validation and audits

Ekjal Tech is incubated by IIT-Kanpur Incubator https://siicincubator.com/

Ekvayu Tech – Tech Stack

Cybersecurity

- Malware Analysis
- Threat Detection
- Log Analyser
- SIRT
- TARA
- · Security in SDLC

AI/ML /DL

- Image processing
- NLP and NLG
- · Multi Modal Processing
- · Language Translation

IT Design

- Architecture
- Front End & Backend dev
- Middle ware
- Testing and Validations
- · Large Data applications
- Mobile Development

Automotive

- Automotive SCM Security
- ISO21434
- V- TARA
- Testing
- Log Analyser
- Embedded Systems

Systems Enginee ring

- Transportation Systems
- · Manufacturing Systems
- Maintenance and Repairs
- Predictive Maintenance

Railways

- Predictive Analysis
- Video Analytics
- Railways IT system Security
- Passenger Management Safety

Ekjal – Products Overview

Products

Phishing Prevention Tool

MVP ready, Under Validation, Launch in Q2, 2024-25 FY

Decision Support System

MVP in 6 Months, Launch in Q3, 2024-25 FY

Predictive Maintenance

CNC Machines, Railways – Under Development, MVP in 5 Months

Secure Knowledge Management – AI/ML

Ready, Under validation, Marketing to Start in 2 Months

SCM Security – Automotive

Ready, Ahead of Market, Marketing to start in 8 Months

Ekjal – Products in Pipeline

Endpoint Security

- Software Inventory and risk Audit tools
- Configuration Checking tool
- Weak Password Checker tool
- Periodic monitoring

Automotive & Supply Chain Management

- DDIA Lifecycle Tool & Portal
- SIRT Tool
- TARA services
- Testing and Validations
- Audit & Compliance
- Supply Chain Security Mgmt

MSSP

Log Analytics and Threat warning tool

Ekjal – Professional Services

Services – For quick revenues

Enterprise Cybersecurity

VCISO, Audits, ISMS, Architecture, BCP – Digital Marketing started for next 4 months.

Automotive

TARA, Vaidations and Testing, VCSMS, ISO21434 on offer, Marketing ongoing

Focus on Services to gain foothold so that Products can be positioned easily

VCybersecurity - Key Components

- Supporting Business Context and Requirements
- Supporting Cyber Security Management System (CSMS) Development
- Project Dependent Cybersecurity Management support
- Distributed Development Cybersecurity management support
- Regular (Continued) Cybersecurity Management Support
- Supporting Cybersecurity in Product
 - Concept phase
 - Development phase
 - Post Production phase
- Threat And Risk Analysis (TARA) Support

Customers

Products – Cost and Revenue projections

	Product	Dev Cost	Mkting Cost	Proj. Rev.	TAM	Status
	Automotive Supply Chain Security –DDIA security	100 K	250 K	1.5 MN	8 M	Mkt would need in 6- 12 months
2	Anti Phishing Product	Channel Mkting	100 K	700 K	5 M	MVP ready
3	Predictive Maintenance	150 K	50 K	2 M	8 M	Under developm ent
4	Decision Support System	Channel Marketing + 200 K	100 K	3 M	15 M	Under Developm ent

Fund Raising

Investment

	Project	Dev	Mkting	Own Fund	Gap	Inv Need
1	Anti Phishing	0.1	0.8	0.25	0.55	0.75
2	SCM for Automotive	0.2	2.0	0.5	1.7	1.70
3	Predictive Maint.	1.0	0	0.2	0.8	0.8
4	Decision Support System	0.2	0.8	0.2	0.8	0.8
5	Total	1.5	3.6	1.15	4.05	4.05
